Organic vegetables are getting more and more popular. They are usually smaller than others, look grubby and may even have worms, but still quite a few people spend more money on them. Some farmers grow organic vegetables without using any chemicals.

More and more people care about their own health; they don't want to eat any food that hurts their bodies. They are sure eating organic vegetables is a good way to keep healthy.

Quite a few... 很多…

Having the right body shape is the important "homework" for teenagers, but they have trouble knowing what the right body shape is for them. In the past, <u>obesity</u> was a big problem for teenagers. They ate too many snacks and sweets. But today, more and more studies show that teenagers eat less because they want to be thinner. The thinner a person becomes, the more handsome or beautiful he or she may look. Obesity is not good, but being too thin is not good, either. No matter how you are trying to gain or lose weight, you can't forget about your health. If you are not healthy, you can't live a happy life. So, you need to have a balanced diet because you need nutrition to be healthy. Also, a healthy person will have energy to study, play, and enjoy life! In short, you may care about your looks, but you also need to keep your health in mind. You are what you eat.

☐ gain weight 增加體重 balanced diet 均衡的飲食 nutrition 營養 energy 活力
