This is a letter by Selena Bieber to the students in her school.

Later Is Better!

Selena Bieber
Northville High School

Do you feel it's hard to get up early for school and even harder to listen well in the first class at 8 a.m.? Well, this happens to most of us and is not helpful for our learning!

Some studies show that teenagers' brains make melatonin, the hormone that helps sleep, between 11 p.m. and 8 a.m. So it's better for us to sleep during these nine hours. But here comes the problem. We're asked to get to school by 7:30 a.m. That means we have to get up before 7, when our brains should still be sleeping. That's why we're always so tired and can't think clearly in early morning classes. *No clear head, no good learning, right?*

If we can't change how our body works, why can't school start later? In this way, we can not only sleep more but also learn better!

Want to help us make it happen?
Visit www.nvhsstudsup.org/later-better to learn more.

- () 37. What is Selena Bieber trying to tell us?
- (A) Too many high school lessons are too difficult.
 - (B) The classes start too early in the morning.
 - (C) So many students are late for school.
 - (D) Students need less sleep, so they can get up early.
- () 38. What can we learn from the letter?
- (A) Sleeping longer helps the body make more melatonin.
 - (B) The brain stops making melatonin from 11 p.m. to 8 a.m.
 - (C) It is easier to fall asleep when the brain is making melatonin.
 - (D) Too much melatonin make students get up earlier and learn better.

IV (39-40)

Below is part of a new shopping center's market report.

Our busiest time is weekend afternoons, between 1:30 p.m. and 3:30 p.m. About half the business of the week is done then. So it would be better if we move Weekend's Best Buy from Saturday evening to Saturday afternoon when there may be more shoppers during the sale. We should also think about having more free buses during the weekend, as 75% of the shoppers who were interviewed said two buses an hour are just not enough. Weekend evenings are second busiest, though it is not as good as last season. An interesting fact is that business is better on weekday evenings, usually one hour before closing, than on weekend mornings. Most of the shoppers then are people who live near or working parents who do their last-minute shopping. They together make up almost 60% of the business on weekday evenings. It might bring in more business if we open half an hour longer during weekdays, until 10:30 p.m.

() 39. What does the report NOT suggest?

- (A) Having less free buses for shoppers.
- (B) Changing the opening hours on weekdays.
- (C) Making plans to help the business of the week.
- (D) Changing the time of the special sale on weekends.

() 40. What does the report say about the shopping center?

- (B) Its business on weekdays is not as good as last season.
- (C) All of the shoppers take the free buses to the shopping center.
- (D) A large part of its shoppers on weekday evenings are working parents.

Fun-Run Blues in Australia

In one year, Australia has more than 21,000 big sporting events. These events bring 3.7 million sports players to the country. Many of them are marathons, bike races, bush treks (a big Australian thing), and, of course, the Fun Runs. But something stops the Fun Runs, giving people the Fun-Run Blues in Australia. What could it be? Take a guess.....Yes, it's Covid again.

To be sure, Australia has done better with Covid than North America or Europe have. For example, its Covid cases and deaths are much, much lower than those in the USA, Canada, or the UK. And hospitals have not been over-filled with the sick. Besides, most stores and schools have stayed open.

Now, back to the Fun Runs. They have different kinds like Mud, Zombie, Sweet, Boozy, and Seasonal. These runs are a big fun for party runners. For those charities, like Tzu-Chi or the Red Cross, they can get a lot of their money from these events. In fact, sporting events in Australia make close to \$100 million for world charities. Many events have been stopped because of Covid and the charities get less money. That means more people may face the hard time of their lives. With the Delta problem growing, things may stay bad in 2022. G'day!
