 (C) when should we go to the Yi-chang Garden
 (D) how did Lee Home go to the airport

第三部分：閱讀測驗（第 38~45 題，每題 2 分，共 16 分）

Ask Animal Biologist, Dr. Joe, a question about your pet:

Jay-Z: Yo, Doctor! I heard that my dog can't see any color. Is that true?

Doctor Joe: Well, it's a little true. Your dog can smell 10,000 times better than you, but it can't see red, purple or orange.

.....
Lady Gag: I want to see ultraviolet light (UV). Can I change into a new animal to do this? I'll do it!

Doctor Joe: I cannot change you a new animal. But, I can tell you that spiders can see UV, and snakes can see infrared ray.

.....
Shaquille: Hello doctor. I am going to guess something. Since apes, chimps and some monkeys look like us, I wonder if they can see the same colors as me. What do you think?

Doctor Joe: I think you went to a bad school. Just joking. You are right. These animals see the rainbow just like us.

.....
Gecko: My teacher told me I am as blind as a bat. Are bats really blind? Am I blind? I am worried about my eyes.....

Doctor Joe: Tell your teacher he is wrong. Bats see very well at night but not in the day like us. They also use sound to tell directions.

infrared ray 紅外線

38. What is the reading mainly (主要的) about?

- (A) Different animals see the world very differently.
- (B) Animals can be trained to see things clearly by people.
- (C) The vision of every animal is the same as people.
- (D) Doctor Joe keeps several kinds of animals as his pets.

39. Which is **NOT** true about the reading?

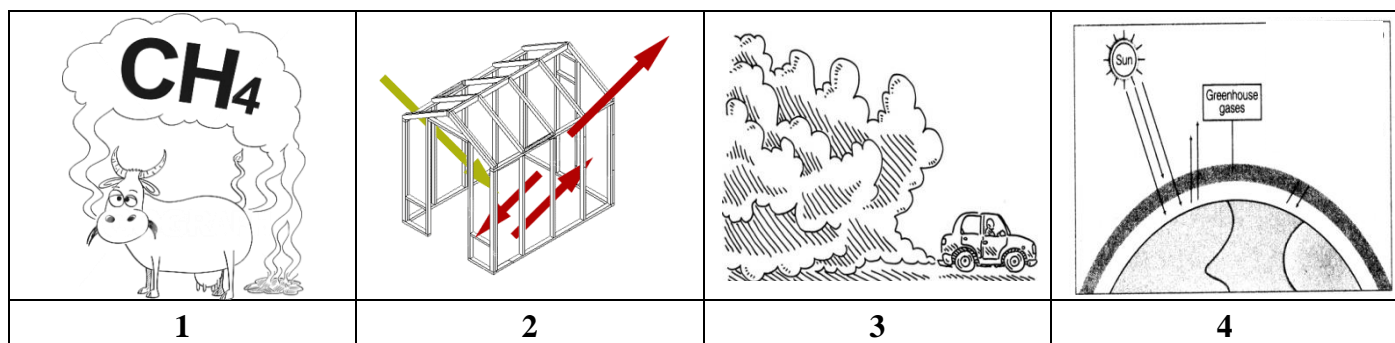

- (A) Dogs are color-blind but they can smell better than people.
- (B) Spiders see both infrared light and ultraviolet light (UV).
- (C) Some monkeys can see all the colors of the rainbow.
- (D) Bats use sound to see very well while flying in the dark.

(40~42)

The earth is getting warmer with more and more greenhouse gases in the atmosphere. To better understand how greenhouse gases heat up our earth, we should first know what greenhouse gases are and where they come from. A greenhouse is a special house made of glass for plants. It holds the heat of the sun so that the plants inside can grow better. Some gases in the atmosphere work like a greenhouse and can keep the heat of the sun, so we call them greenhouse gases. Greenhouse gases help our earth stay warm enough for animals and plants. In fact, our earth would be too cold for life without greenhouse gases.

There is, however, a big problem. More greenhouse gases than our earth needs are entering the atmosphere because of the way we live. For example, with a great number of cars, there is too much CO₂, a common greenhouse gas, and farm animals give off a lot of CH₄, another greenhouse gas. If we want to “cool down” our earth, a good start is to change our way of life, like driving less and eating less meat.

40. According to (根據) the reading, put the pictures in order.

- (A) 1→3→2→4
- (B) 2→4→3→1
- (C) 3→1→4→2
- (D) 4→2→1→3

41. What is It in the reading?

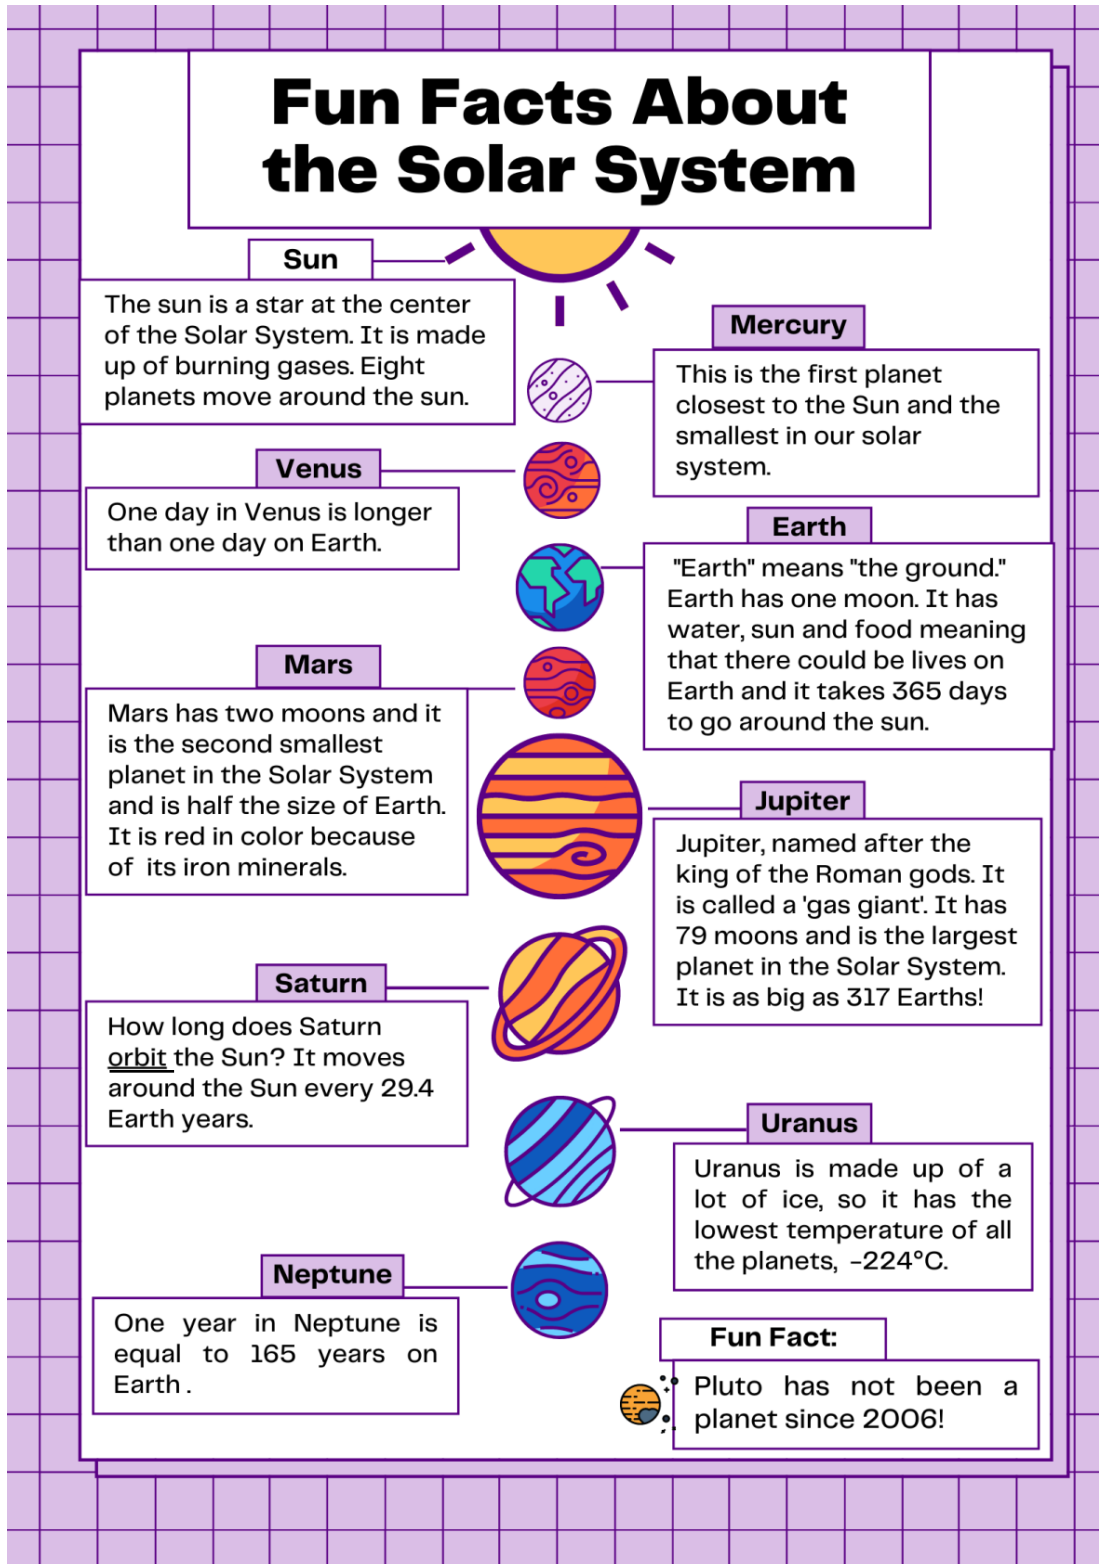

- (A) The planet.
- (B) The Earth.
- (C) The greenhouse.
- (D) The atmosphere.

42. According to (根據) the reading, which is true?

- (A) Greenhouse gases are made up of CO₂ and CH₄ outside the atmosphere.
- (B) The temperature of the Earth is less warmer because of greenhouse gases..
- (C) Animals and plants need more and more greenhouse gases to live and grow.
- (D) People should change their way of life to make fewer greenhouse gases.

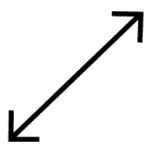

(43~45)

This is a poster on the wall of the science classroom.

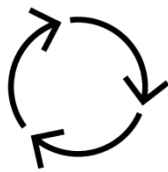

43. What does orbit mean?

(A)

(B)

(C)

(D)

44. It is the fifth planet from the sun and it is bigger and heavier than all the other planets. It has the most moons moving around it in the solar system. Which planet is it?

(A) Earth.

(B) Saturn.

(C) Mars.

(D) Jupiter.

45. What can we learn from the poster?

(A) One day in Neptune or in Venus is much shorter than one day on Earth.

(B) Uranus is the coldest planet because it's the farthest away from the sun.

(C) Pluto has been the smallest planet of all in the solar system since 2006.

(D) Some of the planets have moons to move around them in the solar system.

以下為非選擇試題請將答案直接寫在答案卷上(共有三大題)

一、會考精選文章(6%)

(一) 請根據上述信件內容，填寫相關資訊在邀請卡(直接作答在答案卷上!!!)。每格2分，共6分。

Date: Tue, Jan 18, 2022 at 10:01 AM
Subject: Daniel's 5th Birthday Party – This Saturday!

Hello Dave,
We're happy to invite you and your family to Daniel's fifth birthday party this Saturday.
We know we told you that the party would be in Northbank Park. However, we just moved to Carlton City last month, so the party won't be in Pattersons Town. It'll be at Mosman Garden right next to Victor Zoo, just across from our new apartment. Please don't go to Northbank Park next to our old house.
The weather report said that it may be rainy this weekend, but we have a plan if this happens. If it rains, we'll move the party inside our home. However, if we're lucky and it is fine, we'll still have the party at the garden.
Again, we're all very happy and excited to welcome you to join us for some fun this weekend!
Best,
Mia, Sam & Daniel

二、依提示作答(9%) (每題3分，錯一個地方扣1分。)

1. (In the police station)

When the police ask Chris who took his wallet on the train, he points to the person C. Please write down at least 3 features (特徵) about the thief.

2. The song was written by Vivian. (使用關係代名詞合併句子)

The song was playing on the radio yesterday morning.

3. Eric hasn't finished the report. (使用關係代名詞合併句子)

The teacher asked for the report.

三、Word Search (5%)(請直接在答案卷上圈出單字，直線、橫線、斜線皆可，每字1分，至多5分。)
