Colorful goes on sale, starting from March 7th

Ted Morrison, a blind singer, touched many hearts with *Simple Mind*, his best-selling album. His music is popular at home and abroad and is often used in movies. His new work, *Colorful*, is as great as ever. Here are four songs from the new album that mean the most to him.

▶▶ **Let the Light Shine**

This song is about Ted's father—he is always there and gives Ted hope in difficult times. Just like how Ted's father makes him feel, this song can warm your heart.

▶▶ **River**

Ted wrote this song to remember his mother. His mother's face is what he misses the most since he lost his sight. This is the first time Ted plays the piano on an album.

▶▶ **Winter Snow**

The idea of this song comes from Christmas holidays Ted spent with his grandparents when he was little. They are long gone but he wants to remember those days with the song.

▶▶ **Across the Sea**

Just like *New Land* on *Simple Mind*, Ted's wife joins him in this song. She wrote it to celebrate their love for each other.

* Buy two CDs and save 10%! Until March 20th.
 * \$5 from each sale will be given to the School for the Blind.

Palm reading can give you some ideas about yourself. Before you do that, you need to know what the most important lines are and where they are on the palm.

First is the big line that begins at the side of the palm between the thumb and index finger and usually goes down to the wrist. It is called the life line, and it gives you an idea about your health and how old you might live.

Next is the line that starts at the same place as the life line and runs across the palm. It is called the head line, and its length tells how smart a person is. So, the longer it is, the smarter you are. Above that is the heart line. It runs across the palm to below the little finger at the edge of the hand. It shows how strong your heart is and how you feel about love.

After that is the line that runs from the bottom of the palm up to the bottom of the middle finger. It shows when and how you will become successful and is called the fate line.

- (D) The head line tells when a person’s life ends.

Meet the Goats That Help Create Firebreaks

Goats are great because they give farmers milk and meat. Now, Scott Morris of 805 Goats has found another way that goats can give to us.

Morris lives in California. There is brush everywhere there, and the brush can easily catch fire and turn into a wildfire. So, to prepare for the autumn wildfire season, people have to clear the brush and build firebreaks. However, that takes a lot of time.

This is where Morris's idea comes in. He gets his goats to do it. He knows goats love to eat, eat fast, and eat continuously. Also, getting goats to eat the brush is less expensive than having people clear it away. Besides, it's good for the Earth.

Wildfires have become a serious problem not only in California but also in many other parts of the country. So, Morris's 805 Goats and others like them might be just what we need to help fix the problem.

Do you know where the milk you drink comes from? Did you know only happy cows make good milk? Great Milk would love to share our knowledge about milk and help you get the freshest milk from the best dairy farms.

In Taiwan, around three-quarters of the dairy market is controlled by big companies. Many small dairy farmers have no choice but to sell their milk to them at very low prices. It is quite hard for them to make a living that way, so they need other ways to sell their milk.

Great Milk hopes to change that by building a bridge between small dairy farmers and you. Visit us at www.greatmilk.com.tw to meet our friendly hard-working farmers. When you are there, you can easily place an order for their great fresh milk.
